Abbeyleix - -	30 Jan. 1852	2	May 1853 May 1854	That portion of the Order requiring a "Return of the Cost of each Revision of each Union" cannot be complied with, as the accounts have not been kept by unions, but by counties, and consequently I am unable to ascertain the expenditure on any particular locality from the general account with the county; in addition to which, it is not always found practicable even to charge the expenditure under the head of Revision, although it may have been partially incurred on that account, as it has frequently happened that a portion of a county first completed has been put into operation for poor rating, and in consequence a revision of that portion was required, while the remainder of the county was still in progress of valuation; and as it is necessary, in the first instance, to close the account with the county for making the valuation generally, before a revision account can be opened, the cost of revisions in all cases, as above mentioned, was included in the general account for making the valuation of the county. A great difficulty would arise in any attempt to keep an account of the cost of revisions by unions, in consequence of the numerous instances in which the same union extends
